

AS-1350 - 2D Barcodescanner

- 2D Imager Barcodescanner
- Incl. USB Kabel
- Unique housing design
- Plug and Play Operation
- Supports scan from displays

ARTDEV
DEVELOPED FOR YOU

The AS-1350 from ARTDEV is a handy, powerful and visually appealing barcode scanner for 1D and 2D barcodes such as QR codes or Datamatrix barcodes.

The AS-1350 Imager is supplied fully equipped with a USB type A connection cable. An additional power supply is not required for operation. The AS-1350 works in USB plug and play mode.

The ARTDEV AS-1350 has an optical and acoustic scan confirmation. The illuminated ring on the top of the barcode scanner indicates that a barcode has been successfully read. This is particularly interesting where acoustic confirmations should be deactivated due to environmental conditions.

Benefits:

- Unique design
- USB Kit with Plug and play operation
- Supports all standard 1D and 2D-Barcodes
- Optical and acustical reading confirmation

Fields of operation:

- Retail
- Storage
- Picking

Technical details:

- Optical sensor: 2D CMOS, 640 x 480 pixel
- Barcodes: All standard 1D and 2D barcodes
- Interface: USB
- Cable length: 1.5m
- Weight: 186g
- Dimension (L x W x H): 163mm x 68mm x 80mm
