

# SD800 - 8" USB-Kassenmonitor

- 8" True Flat Display
- USB-Connection
- 1024 x 768 Pixel
- No Power Supply needed
- No Driver Installation needed
- Wide Viewing Angle

**ARTDEV**  
DEVELOPED FOR YOU

The ARTDEV SD800 is an 8" customer monitor with a true flat display and USB interface. It can be operated on its stand and pole.

Its LCD display with 8" diameter and 4:3 ratio will be operated at 1024 x 768 pixels and, thanks to its high viewing angle, can also be easily read from the sides.

The SD800 will be connected by a USB cable and does not need an additional power source like a power supply. Furthermore modern Windows operating systems automatically identify the SD800 which means that no driver installations are needed.

#### Benefits:

- Elegant True Flat Design
- 8" 4:3 Display with 1024 x 768 Pixels
- USB Connection without additional power supplies

#### Application:

- Retail
- Hospitality
